## NOTICE

**IN SENDING US YOUR ORDER** be careful about proper address so as to avoid delay in mail as well as being returned by the Post-Office authorities for proper address, and care should be used to have return name and address on all letters containing money.

**METHODS OF SHIPPING.** Unless specified in order we use our discretion in method of carrier for delivery, basing our judgement on classification of seeds, number of pound in package, and manner in which order is sent, at all times with our endeavor to avoid any additional expense to our costomer. We readily ship orders C. O. D. EXPRESS, C. O. D. UNITED STATES MAIL, or ORDER NOTIFY FREIGHT, with our Draft Attached to Bill of Lading through your bank. However, personal checks may be used or Post-Office Money Orders and Express Money Orders purchased at a smaller amount of expense than C. O. D. Charges on return of money.

**OUR GUARANTEE.** We use at all times the utmost degree of care in placing our contracts with growers of seeds, and only buy from those with whom we have had past satisfactory experience, or the very best of reference from our oldest growers. We cannot absolutely guarantee any stock to be of a specified strain, but we do GUARANTEE that our stocks are filled from RELIABLE growers who we have every reason to believe give us as good as can be grown, and are always willing to recieve complaints when justly based, and will investigate thoroughly at our source of supply before purchasing for our trade again. However, "we give no warranty, express or implied, as to the strain, productiveness or condition of crop on any seeds handled by us, and if the purchaser does not accept goods on these terms, they are to be returned at once."

### PARCEL POST RATES ON PACKAGES BY MAIL

#### Mileage Based from Sanford

Pounds	50 Miles	150 Miles	300 Miles
1	.05	.06	.07
2	.06	.06	.08
3	.07	.07	.10
4	.08	.08	.12
5	.09	.09	.14

NOTE.—For computation simply remember that charges are based on five cents for the first pound and one cent per pound for each succeeding pound in weight within one hundred and fifty miles. Between 150 miles and 300 miles distant, add two cents (2c) to charges on same package for 150 miles and you are correct. The above explanation is to enable customers to know just what amount to add for postage on articles not prepaid.

### SEED SUPPLY:

There is a liberal supply of the most of garden seed this spring, but on account of scarcity of labor and high prices of experienced help we have not found it possible to reduce prices as much as we would like. On account of high prices in the printing line we have decided to cut out our regular catalog for this season and eliminate every possible expence and thereby enable us to reduce the price of seed as much as possible and give our customers the advantage. We have the largest and most up to date stock of seed we have ever had, and we are glad to say that we will be able to fill almost any order this spring promptly and in full, and while we are not

making any elaborate cuts and descriptions we are in position to give you the very best quality of seed and at reasonable prices and we respectfully solicit your order, large or small.

With best wishes to all for a happy and prosperous New Year, We are, Yours very truly,

The L. Allen Seed Co.
